

## Lab Write-up format Sheet

- Objective:** What are you going to learn from the Lab?  
(Problem)  
(Question) 1-3 sentences
- Hypothesis:** Your educated guess as to what the result of the experiment will be.  
1 sentence
- Materials:** List all materials to be used during the Lab.
- Data:** Copy the tables, graphs, charts, lists, etc. as needed to complete the Lab.
- Questions:** Completely answer all questions.
- Conclusion:** Briefly summarize what you learned during the Lab. Make connections to and include information from the book.  
5-8 sentences
- Tips:**
1. Do not use words or phrases such as: I, we, think, feel, maybe, sort of, don't know.
  2. Use professional, scientific writing style.
