AUTOMOTIVE TECHNOLOGIES CAREER PATH

REQUIRED COURSES

AUTO IA/B

Prerequisite: Must have completed Auto 1A before taking Auto 1B

An introductory course, consisting of classroom and shop experiences in which the student will learn to identify, locate and describe the operation of components comprising the engine, power train, brakes, frame and suspension, and accessories. Minor repairs and preventive maintenance may be performed by the student through the proper use of tools and equipment in accordance with proper safety practices. Much of the shop experience will come from working on students own vehicles, so it is recommended that you either have a car or have access to one for practical experience. Auto 1A will be approximately 50/50, shop/classroom. Auto 1B will be approximately 60/40 shop/classroom. A contribution of \$15 is appreciated for 1A and \$20 is appreciated for 1B.

- ◆Auto 1A
- ◆Auto 1B
- ◆Auto 2A
- ◆Auto 2B
- ◆Career Exploration Project
(Must be in Career Industry Sector)

OPTIONAL COURSES

(Choose 2 or More)

- ◆Vocation Auto A
(Equal to two courses)
- ◆Vocation Auto B
(Equal to two courses)
- ◆ROP Automotive Technology
(Equal to two courses)
- ◆Introduction to Business
- ◆CAD

CAREER EXPLORATION

Seniors have a unique opportunity to demonstrate and apply twelve years of education; they become explorers, creators, risk takers, decision makers, independent learners, and leaders. All components of this project are linked to a topic of personal interest, which furthers a student's opportunity to explore career opportunities. The project will demonstrate a learning stretch on the part of the student. The project requires a minimum of 45 hours from the student in which they job shadow, volunteer in the community or learn a new skill. The student will identify and collaborate with a community mentor in the development of their project, which will help enable the students to make an informed future career choice.
