Valencia High School Leadership Career Path

AIR FORCE JUNIOR RESERVE OFFICER TRAINING CORPS (AF JROTC)

Valencia High School hosts the AFJROTC program for students from West Ranch, Saugus, and Valencia High. The Junior ROTC program is a cadet leadership laboratory where cadets are able to earn ever-increasing levels of responsibility. All classes and activities are primarily run by a cadet chain of command with instructor assistance and oversight; leadership, discipline, citizenship, and academics are stressed. Students learn about military courtesies, customs, and command structures. All cadets have opportunities to participate in activities such as field trips to military bases, flights on military aircraft, military balls, and community service. Cadets wear the Air Force uniform during the school day once per week. Classes meet in the new ROTC classroom and office complex. All required uniforms and other items are provided to the cadet at no cost. Cadets can also elect to participate in the optional two-week Summer Leadership Encampment.

Students incur no military obligation by participating in the JROTC program.

REQUIRED COURSES

- ◆ Air Force Junior Reserve Officer Training Corps
- ◆ Aerospace Science 1
- ◆ Aerospace Science 2
- ◆ Aerospace Science 3
- ◆ Aerospace Science 4
- ◆ ROTC (minimum 3 years)
- ◆ Career Exploration Project
(Must be in Career Industry Sector)
- ◆ INTERNSHIP
(76.5 hours is required for this career path major)

CAREER EXPLORATION PROJECT

Seniors have a unique opportunity to demonstrate and apply twelve years of education; they become explorers, creators, risk takers, decision makers, independent learners, and leaders. All components of this project are linked to a topic of personal interest, which furthers a student's opportunity to explore career opportunities. The project will demonstrate a learning stretch on the part of the student. The project requires a minimum of 45 hours from the student in which they job shadow, volunteer in the community or learn a new skill. The student will identify and collaborate with a community mentor in the development of their project, which will help enable the students to make an informed future career choice.
